IEG PI NOTICE

No. 58-76

TITLE/SIGNIFICANCE:

CIVIL DEFENSE REGIMENTS - USSR

COMMENT: The wartime mission of a Civil Defense Regiment is to repair damage caused by an enemy nuclear, biological or chemical attack. The key identification feature is their unique training facilities, such as the obstacle course illustrated below. Civil defense units are equipped with engineering vehicles, fire trucks, decontamination equipment and 1-3 light tanks for reconnaissance. Numbers and types of equipment and training aids observed may vary from unit to unit. A civil defense unit is probably located in or around each major Soviet industrial or population center. Photo on reverse side.
